What is  mason ?

Cmdline tool which allow *developers* to create and consume reusable Flutter code *templates* called *bricks* (by felangel).

a brick

A reusable piece of code.

Can be :

- A customizable function/widget/util.
- A dart customizable program
- A customizable architecture (folders and files)
- A Flutter customizable project

 Search bricks

425 bricks found.

very_good_core

A Very Good Flutter app created by Very Good Ventures.

0.10.0 (3 months ago)  29,968

greeting

A Simple Greeting Template

0.1.0+2 (2 years ago)  22,631

very_good_dart_package
